The World renowned HIV/AIDS activist, composer HIV/AIDS anthem cum God's servant, prophet Patrick Donald Oucha has spent 2 months monitoring; one of World's most famous website named: Pinsdaddy.com.

"Yes, I spent about 2 months monitoring the website. The exercise was promoted when some of our online items appeared on Pinsdaddy.com without our consent" explains Oucha.

The prophet later researched on "Creative Commons" and how it gives opportunity to others to build on original works. "In life we must learn to share NOT hunt for money all the time. I think Pinsdaddy.com is giving the required visibility and publicity to all", remarks Oucha.

By 20th October, 2018, Pinsdaddy.com had activated about 50 images from Safe Life Uganda Online facility. "I am grateful; that is what we call Fame sharing through corporate social responsibility. Let God Bless the Team" remarks Oucha.

The prophet reveals "Pinsdaddy.com has become the first popular website to secure my precious time. I spent 2 quality months monitoring the website"

It is worth noting that prophet Oucha is not on Twitter and other platforms online. "I used to visit Face book in 2017, now I do not have time to log in. Some of the items circulating do not impress me and/or appeal to my Godly time" explains Oucha.

The prophet says "Pinsdaddy.com has impressed me and I pray for the Vibrant Team"

OUCHA DESCRIBES PINSDADDY.COM

My friend; Pinsdaddy is positively-provocative, very interesting, interactive, refreshing, accommodative, broad, educative, fashionable, well connected, resourceful and bold".
