Warns African Pastors...

Most African Pastors have not fully Internalized the Structural - Functionalism of the Holy Ghost...

They attack Prophets using radio & Television Channels...

No servant of God should judge fellow servant or believers...
Leave that to God the Almighty.

Pastors should concentrate on; the issues of sexuality & other Spiritual weavils killing Religious establishments in Africa

I request Pastors not to use the mass media for purposes of attacking Prophets, Apostles, Evangelists, Teachers and Believers
