OUCHA VISITS NATURAL HERBAL TRUST, MUKONO, UGANDA –AFRICA

By special life investigator

In Africa

The world renowned HIV/AIDS activist cum composer HIV/AIDS anthem, Prophet Patrick Donald Oucha, August 13/ 2017, visited the rapidly growing NATURAL HERBAL TRUST in Mukono District, Uganda- Africa.

“My schedule to visit this treatment facility was prompted by the fact that Dr. Titus Kusaasira handles some stubborn diseases and his management has so far proven highly effective” explains, prophet Patrick Donald.

Adding that “where treatment facility saves life, we all have to support without discrimination and/ or endless arguments about who should handle cases”

Prophet Patrick Donald’s presence at the facility was also to acknowledge how some terminally ill patients had fully recovered through effective management of African herbal medicine.

“It’s amazing to learn that even cases reversed by the modern health facilities were readily accepted. Now the patients are up – walking and doing great” explains, Prophet Patrick Donald

Prophet Patrick Donald says, “my friend once referred a sickle cell patient who was down in pain for about 2 months ... after 1 week of receiving treatment at the NATURAL HERBAL TRUST, the family reported that the patient was up and going about his business as usual”

Prophet Patrick Donald, calls on herbalists to give patients the right dosage of medicine.

“Over dose or under dose of medicine were some of the challenges cross cutting the rightful management of herbal medicine in Africa” explains Patrick Donald.

He disclosed that some trees were good for the production of herbal medicine but others do have serious issues.

“Very important to use medicine which has no negative impact in the longrun. Herbalists should avoid such trees like solitary trees and /or power trees. They are not good in the long run” explains, Prophet Patrick Donald.

Adding that “ I am impressed with Dr. Titus Kusaasira. His work has created good impact across communities”
