TALKS ABOUT GLOBAL TERRORISM

The Global War on terror has been Manipulated , Misinterpreted ,
Mismanaged & Subsequently Empowered To Last Longer Than Predicted.

To fight terrorism effectively; you should not
focus on what they LOVE most: Killing, Destruction, Torture, Revenge....
Show that life is stronger than death, light is stronger than
darkness and forgiveness is more precious than revenge....

Let the world rethink and re-strategise the war tactics on terror...
It should sound a bell that everyone is potential victim of terror;
Yet terrorists are also victims of the Evil forces;
they act subconsciously & subhumanly.

Negotiating for a peaceful surrender of terrorists would be the most timely,
fashionable, commendable and praiseworthy news to circulate worldwide.
